

Eviction Expungement Impact Survey - for Agencies

Thank you for supporting households seeking eviction expungement in Kansas. This follow-up survey is designed to better understand the outcomes and early impacts of eviction expungement approximately **60–90 days after the initial filing**.

The information you provide will help us evaluate how eviction expungement is working across Kansas, identify ongoing barriers households may face after filing, and understand whether expungement is improving access to housing, employment, and other opportunities. Your feedback will also help inform future policy, training, and technical assistance to strengthen eviction expungement efforts statewide.

Please complete **one survey for each household** you previously reported through the Intake Survey. To protect client confidentiality, **do not include any personally identifying information**. Instead, use the same anonymous Case ID assigned during the Intake Survey so the two surveys can be linked for evaluation purposes.

Estimated time to complete: **5–10 minutes**. Questions marked with an asterisk (*) are required.

* Required

Unique Case ID

Please use the same anonymous Case ID assigned during the Intake Survey so the two surveys can be linked for evaluation purposes.

1. Unique Case ID *

Your Information

(as Agency support for clients seeking eviction expungement)

2. Your organization *

3. Your name *
